Art Unit: 3504

The following office action is in response to patent examination application serial number 08/447,757, filed on 05/23/95.

Acknowledgement is made of the receipt of the amendment filed 11/13/95 and the terminal disclaimer filed 12/26/95. Claim 40 has been cancelled. Claims 35-39 and 41-49 are pending on the merits.

#### **PROPOSED DRAWINGS**

The entry of the proposed drawing figures 3A and 6A has been denied. While original claim 42 recites "said block having two protrusions" there is insufficient support in the specification and claims for both the shape and the location on the block of the protrusions as is specifically shown in the proposed figures.

#### **AMENDMENTS TO THE SPECIFICATION**

The amendments to the specification which relate to the proposed drawing figures should be cancelled.

Serial Number: 08/447,757

Art Unit: 3504

**REJECTION - 35 U.S.C. 112, FIRST PARAGRAPH**

Claim 42 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Although "said block having two protrusions" was originally claimed, the location and shape of these protrusions are specified sufficiently. Are the protrusions on opposite ends of the block? Are the protrusions "dogbone" shaped, oblong, or round? These are some of the questions unanswered by the disclosure as originally filed.

**ALLOWED CLAIMS**

Claims 35-39, 41 and 43-49 are allowable over the prior art of record.

Any inquiry concerning this communication should be directed to Christopher Kent at (703) 308-2497.
